Petition to Waiver

RE: Banks School District's 2.6 Proceedings FCC Waiver Request

To Whom It May Concern:

Banks School District is a rural school District in Oregon. In the 2017-2018 school year Banks School District had a technology department consisting of two individuals. One of the two had a child in early 2018 and have been out on leave for several weeks. During this time the filing windows for forms 470 and 471 came and passed.

The remaining technology staff member filed the 470 application on behalf of the School District on April 4, 2018, passed the due date to submit from 470. When the 28 day window for the posted Request For Proposal (RFP), included in the 470 application, came to an end the filing window for the 471 application had expired as well.

This petition to waiver is filed in order to ask for the ability to file form 471 even though the deadline to file the form has passed. I appreciate your consideration of this request.

Best regards,

Max Sigander
Director of Technology
Banks School District
